

## ABOUT ME

I love programming, traveling, lifting weights and hanging with my wife and kids. While I have spent most my life working in the DME field, since 2002, I've always had a passion for programming and spend most my free time developing and learning new skills. My real passion is to build real world web applications and take the leap to full time developer.

Chattanooga, TN

## EXPERIENCE

---

- **Freelance** April 2019 - Present

### Web Developer

Website creation and management, landing pages from PDF's, custom components, contact forms, REST API hosted on Azure for sample apps to showcase my knowledge and range of skills.

- **Lincare** Jan 2012 - Present

### Sales Representative

Responsible for building relationships with area practitioners and hospitals and meeting sales goals for the following services: NHV, MdINR, Oxygen, Nebulized Medications and Wound VAC's. Consistently ranked in top 20% overall and top 10% MdINR sales every year.

- **Prudential RealtyCenter** Dec 2010 - Dec 2011

### Affiliate Broker

Educate clients and lead through the process of selling or buying Real Estate. Prospect and cold call for sale by owners to educate and market their property successfully.

- **Rotech Healthcare** Mar 2008 - June 2010

### Location Manager

Responsible for ensuring location growth and profitability while effectively managing daily operations, sales, and clinical staff. Communicate company philosophy and objectives to location team and community.

- **Rotech Healthcare** Mar 2005- Mar 2008

### Patient Service Tech Lead / Quality Control

Performed deliveries, provided services, and ensured patients and/or caregivers understood instructions for and were comfortable with use of equipment. Supported sales on key accounts to ensure uniform process and to help maintain and build relationships in the medical community.

- **Apria Healthcare** Jan 2002 - Feb 2005

### Patient Service Tech / Inventory Control rep

Responsible for cleaning, delivering, and instructing medical equipment as well as keeping up with inventory. Assisted with planning and coordination of patient care for six delivery drivers.
